Chapter 14 - Air Conditioner. AC-xx

Stamps have been required on Air Conditioning equipment for many years. The stamps are hardly to find in a collection, as they are impossible to remove from the units. They are glued very tight to the metal and cannot be removed in 1 piece. The stamps are printed on paper. It is also against the law to remove them from a working unit. The following two stamps are photographs of the stamps still attached to the unit.

Aircon early 1990's
Stamp size 103 x 90 mm

AC-01

NUMBER	DESCRIPTION	MINT	USED
AC-01	Blue on silver	-	-

Aircon stamps December 2004
Size 75 x 50 mm

Starting around the year 2004, each air conditioner had 2 stamps attached. An FC stamp attached to the Fan Coil unit and a CD stamp attached to the compressor unit. The fan coil is positioned inside the house and a compressor is typical place outside the house. Announced in the Royal Gazette Vol 121 Sec 72ก.

AC-02 from domestic fan coil

AC-03 from imported compressor

AC-04 from domestic compressor

NUMBER	DESCRIPTION	TYPE	MINT	USED
AC-02	Light - green	FC Fan Coil domestic	-	B 500
AC-03	Light - blue	CD Compressor import	-	B 500
AC-04	Cream	CD Compressor domestic	-	B 500

Aircon stamps after 2005
Size

The following stamps are printed on plasticized paper. They can be removed from the compressor and fan coil. However, upon removal the word VOID will appear multiple times in a diagonal direction over the stamps.

AC-05 domestic fan coil

AC-06 imported fan coil

AC-07 domestic compressor

AC-08 imported compressor

NUMBER	DESCRIPTION	TYPE	MINT	USED
AC-05	green	FC Fan Coil domestic	-	B 400
AC-06	yellow	FC Fan Coi; import	-	B 400
AC-07	blue	CD Compressor domestic	-	B 400
AC-08	pink	CD Compressor import	-	B 400

Using revenue stamps on air conditioner units was phased- out around 2015
