Essays of the January 1943 series of Tobacco stamps.

Essays printed in black are recently (2024) discovered. The type number below refers to the type number written on the sheet above the essays. Below type 1 on the sheet are the following written comments.
Start print in January 1943. For value 1, 2 and 3 satang the print in black color, for value of 4 satang the print in green color, for value of 5 satang the print in blue color and the value of 10 satang, the print in red color. It is not sure if this comment belongs to Type 1 stamps. Anyhow of the few known stamps of this 1943 series, all 4 types follow this color scheme. These stamps were never announced in any Royal Gazette issue. I am not sure which types and values were actually issued, since lots of these old stamps did not survive the times. However below is a listing of all known stamps.

	Type 1 Frame 115x17 mm	2 satang
	Type 2 Frame 60x12 mm	1 satang
	Type 3 Frame 60x12 mm	4 satang

	Type 4 Frame 60x12 mm	10 satang

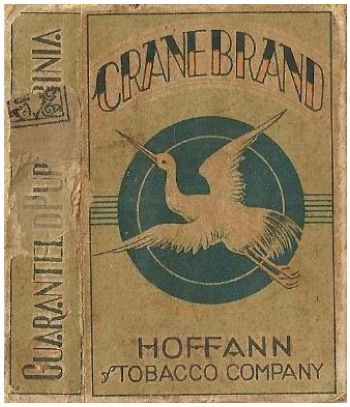

There were 14 new stamps announced in 1943. 9 of them had a similar description as previously issued stamps..

These stamps are not described in a Gazette announcement. The issue date is unknown – probably W.W.II era. They have been seen in 4 values. The values are large, so they must have been used on large packs or bulk tobacco. The 15- baht value has been seen on a "The Three Castles" and "Clipper" brands of cigarettes in cans of 50, imported from England. The medallion is not centered on the stamp, but is near the left end. The values are printed vertically on the left end of the stamp. There are 3 red lines (narrow, wide, narrow) to the right of Baht – in Thai, and below the medallion. The text to the right of the medallion reads "Tobacco Monopoly; Excise Department". There are handstamps in red similar to TH-001 thru TH-005 on the right end of the long stamp.

These stamps are unusual for several reasons. They are not described in a Gazette announcement. Their issue date is unknown. They have been seen in only two values printed in red ink on white paper. The printing is not sharp and appears to have been done locally. These stamps have been seen used on packages of "The Three Castles" and "Navy Cut Tobacco" (3.00 baht) and "Double Ace" (2.50 baht) brands of cigarettes imported from England. The medallion is not centered on the stamp. The medallion contains an image of a WaYuPhak bird and an inscription at the top that reads "Ministry of Finance". The text on the right ide reads "โรงงานยาสูบ" (Tobacco Monopoly) above the four horizontal lines and "กรมสรรพสามิตต์" (Excise Department) below the horizontal lines.

The first rubber handstamps for the Thailand Tobacco Monopoly

Until 7 September 1943, the Thailand Tobacco Monopoly or TTM had used tobacco stamps on their products. But on that date the TTM was instead allowed to use a rubber handstamp on two brands of their cigarettes.

These were the 'กลอง' (Box) and 'ปรางค์สามยอด' (Three Stupas) brands of cigarettes.

On 21 October 1943, the TTM was authorized to use 3 additional rubber handstamps on the various brands they produced.

TYPE TH-001	STAMP SIZE 29 x 14 mm	PERF	ROYAL GAZETTE	ISSUED 1943 to 1950's

This is one of the few styles of handstamp seen for taxing cigarettes. Based on the type of package it was used on; it appears to be from the late 1930's. Text around the medallion reads "Finance Ministry". Text on the left reads "Tax", and on the right, "3 satang". It was seen used on a 10 cigarette pack of Royal Standard Magnums.

First Tobacco revenue stamps printed overseas after the war.

After a gap of several years in printing tobacco revenue stamps, during which some of the handstamps described before were used, on January 1950 the first new tobacco stamps were issued. These were the first stamps after World War 2 which were printed aboard in the UK by Bradbury Wilkinsons. There are 3 different types, issued with the type written in Thai numerals on the very right side of the stamp.

Type ๑ or 1 to be used for tobacco produced in Thailand

Type ๒ or 2 to be used for small tobacco factories in Thailand making less than 200 cigarettes per day

Type ๓ or 3 to be used on tobacco imports from foreign countries.

It is not sure whom printed those stamps, but I believe it was either Thomas De La Rue or Bradbury Wilkinson.

The notice 'Royal Standard No. 111 THIS STRAP IS THE MARK THAT SHOWS THE TIN HAS NOT BEEN OPENED' is printed in blue on bronze colored paper. But the wording 'No. 111' is printed in red. There is Thai inscription on the stamp 'เราช่วย ก.ศ.ส. ๒๕ สต. + ๒๕ พ.ศ.ว. ๕ สต' showing that a portion of the sales price was used to support two public welfare organizations. When these programs ended in January 1962, the inscription on the stamps was obliterated by a rubber handstamp with the wording 'อากร ๑๒ สต.' (revenue 12 satang) to stamp onto the stamp, using a blue ink.

Tobacco Package Symbols Introduced.

In 1971, the Tobacco Monopoly largely ceased use of the paper package closures which had been introduced in 1957 and replaced them with special symbols printed on the product packages. These symbols consist of an 8.5 x 7 mm image of the Excise Department seal with a notation that the taxes had been paid.

	Example of Excise Department symbol currently used on most Tobacco Monopoly products. 'ชำระค่าแสตมป์ยาสูบแล้ว' translates to 'Tobacco Stamp Costs Already Paid.' This same logo was still used, printed on the package of cigarettes in 2013

TB-194a

These labels were first introduced on 13 June 2001 on Sai Fon (Falling Rain) and Krong Thip 90 domestic cigarettes. They are printed in dark blue and green ink on white paper. The background has a printed design, in light blue on each end and a light peach color in the center. There is micro printing that reads "Excise Department" in a circle between the circles that compose the border around the central medallion. Under UV light there are two 8 pointed stars in fluorescent yellow-green under the text on the left and right of the medallion. They were introduced on the two brands of domestic cigarettes to prevent untaxed fakes from being brought into the country. The code numbers, "44", "001", "๔๖" (46), "๔๗" (47), or "48" are printed on the second line on the right side of the label.

The printing with fibers in the paper, clearly visible in this increased in size scan.

The text on the left reads “แสตมป์ยาสูบ” (Tobacco Stamp). The text on the right reads “ในประเทศ” (Domestic). These stamps were used in loose tobacco. Bales of 10 kilogram had part sheets of stamps in them of 50 satang stamps. The value of the stamps is implied by the color. These stamps were used for a long time, paper used was white, white with paper silk threads. Some issues have gold ultra-violet (UV) tagging of the name of the Excise Department in Thai (กรมสรรพสามิต) across the middle of the stamp. The red handstamp in Thai reads “Sample”.

These stamps are very similar with TB-191 and TB-192. They are self- adhesive with the TB-201 and TB-202 having X shaped cuts on both sides of the bird. This makes it impossible to peel these stamps off the packages in one piece. The implied values for these colors are not known, but the pink stamp is found on packages of 12 grams and the blue stamp on packages of 22 grams of shredded loose tobacco. These stamps are still in use in 2026.

The vertical line down the center is a canceling mark. The original stamp was printed in blue, yellow and red ink on yellow paper. The yellow ink was printed over the middle of each blue section to create a green color. The original text was in dark blue in this "green" section. It reads "Alcoholic Beverage Stamp" in the left section, and "In Country" in the right section. That text was blocked out with black killer bars and new text added in black. It reads "Non-Alcoholic Drink Stamp - Discount Tax Rate - between 200 to 300ccs". That text was again overprinted in red with the value 50 satang in the right section and "Tobacco Stamp" in the left section. Found in 10 kilogram bales of shredded tobacco in partial sheets.
